

# *NSA Applied Research Symposium: Mapping a Plan for the Future*

## *Save the Date!*

**When:** July 5-6, 2011

**Where:** Renaissance Worthington Hotel, Fort Worth, Texas

### *What's new in stuttering research?*

*What are future directions in medical/genetics, linguistic, motor and psychological aspects of stuttering?*

*Join us and find out...*

This **2-day Research Symposium** will bring together top researchers and specialists in the area of stuttering. Participants will learn about current research projects and participate in discussion groups facilitated by our speakers. This is the conference to attend to obtain continuing education at intermediate and advanced levels (CEU's to be determined).

**Note:** This conference precedes the annual NSA Conference (July 7-10). Stay for a few more days for the full experience while earning even more CEU's.

### **Preliminary list of speakers:**

Gayle Beck, Ph.D. – University of Memphis (keynote speaker)  
Deryk S. Beal, Ph.D – Boston University  
Courtney Byrd, Ph.D. – University of Texas  
Dennis Drayna, Ph.D. – National Institutes of Health  
Jennifer Kleinow, Ph.D. – LaSalle University  
Gerald A. Maguire, M.D. – University of California, Irvine School of Medicine  
Walt Manning, Ph.D. – University of Memphis  
Laura Plexico, Ph.D. – Auburn University  
Nan Bernstein Ratner, Ed.D. - University of Maryland  
Jennifer Watson, Ph.D – Texas Christian University  
Mandy Hampton Wray, M.S. (doctoral candidate) - Purdue University  
Scott Yaruss, Ph.D. – University of Pittsburgh

Details and registration materials will be available soon on the NSA website.
