## 9<sup>th</sup> Annual USF/Tampa Speech Party

In It To Win It: Self-Advocacy Skill Building in Young People Who Stutter

### Saturday April 7<sup>th</sup> | 9:00AM – 2:00PM

This event will empower young people who stutter to build self-advocacy skills. Self-advocacy involves SPEAKING FOR YOURSELF and CONTROLLING YOUR OWN AFFAIRS. To be an effective self-advocate, you must: 1) Develop self-awareness, 2) Know your rights, 3) Learn to communicate effectively, and 4) Develop leadership skills. We will help your child build these skills in fun, age-appropriate activities led by students and faculty from USF's Speech-Language Pathology program. A parent information session will also help you empower your child.

Raffles, food, music, and fun will fill the day. Co-hosted by the University of South Florida National Student Speech-Language-Hearing Association (USF-NSSLHA) and the Tampa chapter of the National Stuttering Association (Tampa NSA).

Location:

## USF Tampa Campus – PCD Building

(across from Moffitt Cancer Center)
