***EXCITING RESEARCH OPPORTUNITY FOR
CHILDREN WHO STUTTER!***

**We are conducting research to learn about
attention patterns in young children**

- We are looking for children **ages 8-14**
- All testing can be completed online
- Free evaluation of speech, language and cognitive skills
- Children complete one 2-hr session and five short sessions (15-20 min)
- Children will look at pictures, answer questions, participate in recorded conversations, and play games on the computer
- Children receive **\$40 total** in Amazon gift cards
- Weekday and weekend sessions available

To learn more about this research or to volunteer, contact:

Dr. Naomi Eichorn, PhD, CCC/SLP
(901) 678-5825 or neichorn@memphis.edu
