The GENERATIONS Mentoring Program from the National Stuttering Association partners a young person who stutters with an older person who stutters via video chats and through text/email.

The NSA is accepting applications for both kids/teens who stutter (ages 7-17, ‘Mentees’) and adults who stutter (18+, ‘Mentors’) with whom they can connect and learn.

• Connect kids & teens who stutter with adults who stutter
• Show that it is OKAY to stutter
• Remind kids & teens who stutter that they are not alone
• Provide support, hope & encouragement
