

Volunteers Needed for Research Study on Stuttering

Are you a person who stutters? You may be eligible for a study on factors affecting stuttering.

Title: The relationship between the stuttering variability, attention, speech task, and delivery mode

Aim of the study: To explore factors affecting stuttering severity. Factors under the study include different speaking and distraction situations

You may qualify if you:

- Are 18 and above
- Are a native speaker of English
- Have been diagnosed or self-identified as having developmental stuttering
- Have access to computer and internet

For taking part in this research study, you will be paid for your time and inconvenience a \$65.00 gift card upon the completion of your participation.

Participation involves:

- Filling in questionnaires, taking about 20-25 minutes.
- Completing a set of different speech tasks during a private Zoom meeting that lasts around 90 minutes, plus 20-30 minutes break time.

Location: Any quiet place where you feel comfortable and have internet connection.
