

Participant Recruitment

We want to hear your Story

Research Question

"The experiences of migrants to the United States who stutter: A replication study".

Canadidacy

To be a participant you must be at least 18 years old; born outside of the US; have been diagnosed with a stutter by a speech-language pathologist inside or outside of the United States; be able to participate in the interview without an interpreter; and have no preexisting conditions that would make it difficult to participate

Time Requirment

1 hour long interviews will be conducted virtually. We have some questions and discussion topics to get us started. Participants will also be able to focus on topics and issues of importance to them with a focus on communication.

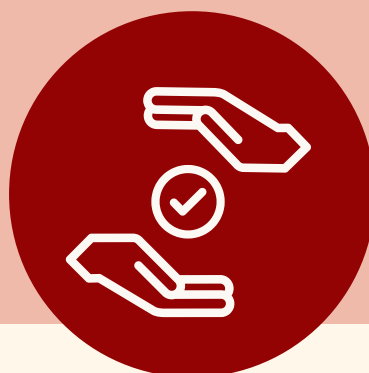

Our Goal

This study hopes to determine the impact migration has on stuttering and vice versa. We aim to learn more about individual's experiences to help migrants manage the process of migration and their stutter.

Token of Thanks

Participants will receive a \$20 Amazon gift card.

Further Details
